ClearID™ is a suite of more than 20 image clarification filters that are powerful, easy to use, and *non-destructive to your original evidence*. With integrated color preview windows and easy-to-use slider bars, ClearID allows you to quickly discover the optimal settings for clarifying your digital-image evidence. There is no need to manually record your settings because ClearID does it for you automatically.

ClearID helps you get better results in less time by automating and streamlining complicated multi-step processes such as those required for pattern removal. And if you ever need assistance, help is just a mouse click away—because the ClearID help menu is integrated within Photoshop's help menus.

A Trusted Solution from a Trusted Company

Ocean Systems is a market leader in providing professional forensic-video analysis systems and training to the law enforcement community. In 1999, we introduced dTective®—and it has become the system of choice for more than 1,000 law enforcement agencies in the U.S. and around the world.

Today, we continue to work very closely with law enforcement professionals. As your needs have changed, we have responded with professional tools, training, and support. The new ClearID forensic-image clarification software is the latest addition to our family of products and services for law-enforcement professionals. For more information, call us at 800-253-7516.
