Exciting News

Ocean Systems is pleased to announce the release of dTective 7.0 which is compatible with Avid editing systems from Avid Xpress Pro to Avid Media Composer 6.0 64bit.

SUMMARY OF IMPROVEMENTS

dTective AVX 2.0 Plug-ins

- dTective plug-ins upgraded to AVX 2.0 (64/32bit from AVX 1.5, 32bit)
- AVX 2.0 provides advanced key framing
- SpotLight and MAGNIFI key framing updated to resolve key frame tweening issue
- dVeloper and dVeloper 4D are now combined into one plug-in with updated functionality
- dTective AVX 2.0 suite now requires only one unlock code for all the plug-ins

dPlex Pro v2.5.2

- Fixed camera name hieroglyphic issue when saving cameras
- Fixed controls from becoming misaligned when resizing dPlex Pro program window
- Moved camera name field below the video camera to allow for longer names

ClearID 2.6.1

- Compatible with Adobe Photoshop CS6
- New registration/unlock code screen and new online unlock code request processing
- Fixed Microsoft Share Point conflict with Interactive Deblur

Planning on upgrading to Avid Media Composer 6.0 64bit?

If you plan on upgrading, you may require a new video I/O box and CPU upgrades for your Avid 6.0 software. Check the compatibility information in the release notes on the download request page. Most systems purchased in the last 5 years can be updated inexpensively.

For more details on this update, please read the Release Notes available on the download page.
